2/25/90

Dear Ben,

I don't know whether the enclosed letter to Erwin Knoll relating to a story on the Hull business will interest you or any of your reporters but I enclose it in the event it might. You did carry a story on Costa Rica wanting to extradict Hull for murder and other alleged crimes.

Oliver North did send Robert Owen to consult with a man who spent much time and effort preparing people to assassinate and for other acts of violence and domestic terrorism.

And Owen apparently had also worked for Quayle. Later State. Some "security" checking they now do!!

If you have any interest in the preparation of people for domestic terrorism, Brown's stuff ought not be hard to obtain, if Wisconsin does not have it. I know it has the similar and quite detailed information I ~~fmkx~~ got from The Minutemen.

Whatever else it might have on The Minutemen, the FBI also has what I had because I loaned it to them. Also the Baltimore County Police Department, with which I worked some on right-wing extremists.

Possibly there have been other such sources for terrorists. I know that CIA-trained Cubans ~~xxxx~~ engaged in not a little and a few FBI informers, too.

My Minuteman file includes their taking credit for the Greenwich Village bombing in which some Weathermen got killed.

If you think that some such article might be considered by Outlook, please feel free to give this to David Ignatius.

I'm reasonably certain that other such information is available from others with whom I used to work, like the Anti-Defamation League.

Best wishes,

Harold
